

The AceCo Micro-Shot is the most unique pepper spray dispenser available on the market today. It is machined from 6061-T6 billet aluminum, is proudly manufactured and assembled in Boise, Idaho USA, and comes with a lifetime warranty against breakage. The Micro-Shot is easily loaded & unloaded from the back of the device with a simple forward push of the trigger. The replaceable pepper spray canister provides 6-8 half-second sprays or a continuous spray depending on the trigger motion. The Micro-Shot provides cone-shaped mist delivery, with an effective range of 6 feet.

Weight- 11.2 oz. (unloaded), 12 oz. (loaded)

Dimensions- 4.85" Length, 4.15" Height, 0.86" Width (Grip)

Trigger Pull- 10-12lbs.

Irritant Agent- 10% OC (Oleoresin Capsicum)

Capsaicinoids- 1.33%

Scoville Heat Units- 2,000,000

Canister Loading Directions-

1. Point the Micro-Shot in a downward direction from harm's way, allowing the large hole at the back of the device to be clearly visible.
2. Push the trigger toward the front of the device, and drop the canister into the large hole at the back of the device.
3. Once the canister is fully engaged into the front dispensary hole, the trigger can be released. (PLEASE NOTE: The aluminum trigger device will visibly slide behind the rear of the canister)

Canister Unloading Directions-

1. Point the Micro-Shot in a downward direction from harm's way, allowing the large hole at the back of the device to be clearly visible.
2. Push the trigger forward toward the front of the device, and carefully tip in an upward direction allowing the canister to exit from the rear hole.

Firing Directions-

1. Once the canister has been properly loaded and the trigger device is visibly resting on the rear of the canister, the Micro-Shot is ready to be fired.
2. Point the Micro-Shot in the direction of the target, and firmly pull the trigger towards the back of the device.
3. Short half-second pulls will dispense in separate sprays, or the trigger can be held back to allow for a continuous spray.
